

Policy Resolutions

The following was submitted by the CUPE Local 1767 Executive Board to the 1978 Annual General Meeting held on May 26 to 28th 1978. This Policy Statement entitled "A MATURING LOCAL" was subsequently adopted by the convention.

"A MATURING LOCAL"

We feel that at the present time, certain fundamental problems exist which inhibit Local 1767 from functioning at its potential.

We have a province-wide local, with some members who do not understand the purpose of a strong Union. They either see themselves as "professionals" who can "look after themselves" when it comes to a conflict with a supervisor or as model employees to which no harm could ever come. To these people, the Union Executive is often considered a nuisance and the Contract and Constitution as frivolous documents.

The present and past Executive Boards have lived with and functioned in spite of these attitudes, but the time has come for change.

OUR MEMBERS

At present the majority of our members are either apathetic towards, or frustrated with, the function of this Local. As some do not know what we do, what we stand for, who we represent, or if we're acting responsibly, they may question the reason for our existence or feel we are the opponent. A number are turning to their supervisors for answers to contractual questions rather than the Union. Because of a lack of a visible Union presence, many members are not willing to pursue rights that are contractually established for them.

An apathetic attitude towards nomination and election of officers in some positions occurs because of a lack of knowledge concerning the importance of those positions.

The results of this disarray on the part of the membership are the following:

- 1) A weakened bargaining position during negotiation of Collective Agreements or other issues.
- 2) Loss to some members of rights already contractually agreed to.
- 3) The alienation of needed talent from the Union cause.
- 4) The loss of informed input to the Executive Board.
- 5) A loss of stature for Union Officers in the eyes of management.
- 6) The eventual worsening of salaries, benefits and working conditions.

We feel it is of greatest importance that these problems be overcome by member involvement, effective officer action, and improved information flow.

DEFINED DUTIES

August 8, 2023

Because all of the officers of this Union are drawn from the rank and file, and also because of the great turnover in these positions, it is inevitable that effectiveness varies from Area to Area and year to year.

We believe that the methods found most effective for each position should be listed so that new officers will have guidance and instructions on how best to achieve the objectives of this organization. Also that the responsibility to see these functions are correctly performed be assigned to one of the Table Officers.

We feel that these lists of duties should be distributed to the membership so they will know what they can expect from their officers and also what is expected of them.

OUR IMAGE

We consider that the image of this Local is not what it needs to effectively perform its function. Both in the eyes of middle management and our own uninvolved members, our lack of visible presence is creating problems.

Steps should be taken to:

1. Ensure the members and management is aware of the importance of the position of Area Representative.
2. Arrange for more contact between the Table Officers and the members, at meetings or in offices.
3. Ensure the membership is aware of the actions taken on their behalf by the Union.
4. Ensure the membership is aware of the desire for their input.
5. Ensure the membership is aware that the Unions resources are available to them to ensure the observance of the Collective Agreement and the defense of their rights at the work place.

COMMUNICATION

We feel that one important reason for member apathy and frustration is the lack of information flow from the Executive Board to the members. It is not possible to remain interested, remain involved or contribute when not informed of the positions being taken, or even the issues involved.

Due to the geographic disparity the need for effective communication is accentuated. As Executive Board meetings are the substitute for regular membership meetings, there should be informative and prompt reporting taking place.

We feel that communications must be handled in a responsive and comprehensive manner, that will inform the membership of the ongoing work and decision making that is affecting our working conditions, job security, and standard of living. Also, that guarantees be written into the officer job duties that all communication for the members reach everyone. It is important
August 8, 2023

also that the membership realize the need for them to communicate their problems to the Union.

CONCLUSION

CUPE Local 1767 is committed to its development into an organization that can effectively and responsively achieve its Principles and Objectives as set out in the Constitution. We believe that member and officer responsibility should include improved communication throughout the organization, improved awareness of the needs of the members and the Union, and increased visibility of the Union function in the work place.

And whereas: This phrase is greatly ignored, neglected and violated in the day to day functioning of the BC Assessment Authority.

Therefore be it resolved that: This Local continue to recognize that, “the need for control over one’s working life is a deep and enduring trait in all human beings” and regards this philosophy as an ideal to strive for.

FORMATION OF A FINANCE COMMITTEE – 1979 AGM

Whereas: the concept of a finance committee composed of members of the executive was Suggested by the Trustees, and

- that idea was accepted by the Executive at their January, 1979 meeting and
- it is not the role of the Trustees to establish the budget or to justify the income or expenses as approved by the membership or the Executive, and
- the feeling of the delegates at this AGM indicates the need for more information regarding the dollars and cents of this Local

Therefore be it resolved that: A finance committee composed of members of the executive and chaired by the Secretary-Treasurer be established:

- that this committee be comprised of at least two

DONATION POLICY – 1980 AGM

This policy is being struck to give Area Representatives and Union officers guidelines for authorizing the giving of donations. Donations would include the giving of cash, gifts cards, flowers, etc.

The guidelines which follow although restrictive are only intended to protect the resources of our Local, into which we all contribute. The guidelines do not reflect the philosophy of our Union towards the health and welfare of our members. Our Union is very concerned over the health and well-being of our membership as this is the philosophy upon which unionism was founded. But, due to limited resources available, our Union is not able to express its philosophy in material ways in all cases, therefore the restrictions.

The following policy does set dollar limits but does not attempt to define serious illness, these decisions are left to the discretion of the Area Representative or alternate.
